

This guide will assist in importing your timesheets from TimePro to Xero for payroll processing.

### Checklist for Xero

- Assign each Staff member an Earnings Rate and a Payroll Calendar.
- Setup a corresponding Payroll Run in Xero prior to running the export.
- A Payroll Run is required for each Payroll Calendar i.e. Weekly, Fortnightly and Monthly.
- Ensure that no timesheets exist in Xero for the staff for the date range of the Payroll Run.
- Assign the relevant Tracking Category under Payroll Tracking if you are using Tracking Categories.

The screenshot shows the Xero Payroll interface. At the top, there's a navigation bar with 'Intertec' and 'Emma Lawlor' in the top right. Below that, a menu bar includes 'Dashboard', 'Accounts', 'Payroll', 'Reports', 'Contacts', and 'Settings'. The main content area is titled 'Pay Runs' and features a video player with a play button. To the right of the video, there's instructional text: 'Add and post a pay run with a couple of clicks!', 'You also have the ability to email payslips and the ability to revert posted payruns.', and 'If in doubt, check out our [help guide for Xero Payroll](#).' Below this is a table titled 'Draft Pay Runs' with columns for Calendar, Period, Payment Date, Wages, Tax, Super, and Net Pay. At the bottom left of the table area is a '+ Add Pay Run' button.

Calendar	Period	Payment Date	Wages	Tax	Super	Net Pay
Weekly -	Week ending 14 Mar 2015	08 Mar 2015	1,078.00	528.00	0.00	550.00
Fortnightly -	Fortnight ending 28 Mar 2015	15 Mar 2015	0.00	0.00	0.00	0.00

### Checklist for TimePro

- Ensure all Staff names in TimePro and in Xero match. Differences in spelling will result in errors.
- All timesheets required for payroll for that period should be completed.
- Decide at which level the Earnings Rate is to be applied e.g. Staff, Project, and Task etc. There are spare fields at each level in TimePro to record this information. A TimePro consultant can assist you with making this decision which will depend on your requirements for integration.
- If you are using Tracking Categories, define the name of the Tracking Category under Xero | Xero Configure | Xero Common.
- If you are using Tracking Categories decide at which level the Option is to be derived from. Populate the Tracking Category Options. For example if you are deriving your Option from the Staff Reference, ensure that every Staff member has an entry in the Staff Reference field. Blank Tracking Category Options will result in the timesheet being rejected. Tracking Category Options that do not currently exist in Xero will be generated on import.

### Export to Xero

In TimePro go to Xero -> Xero Export -> Xero Timesheets

- In Step1. Use the Data Category drop down lists to filter the records to be selected.

INTERTEC  
**TimePro**<sup>®</sup>  
Intertec TimePro Xero Export Timesheets

[Help](#)

---

**STEP 1. Select the time records to be exported.**

Selections by Data Category:

Customer:

Project:

Staff:

Staff Type:

Project [Export to Xero] setting:

**Note: Only time records in "completed" timesheets are extracted by this export process.**

---

**STEP 2. Xero Data Tracking Options.**

For the Tracking Option Region, use the value selected from

---

**STEP 3. Payroll Integration.**

Pay Run Date From:  To:

For the Xero Earnings Rate, use the value selected from

- In Step 2, select where the Tracking Option(s) are to be derived from.
- In Step 3, select the date range. This date range must match an existing Payroll Run set up in Xero.
- Select where your Earnings Rate will be derived. If all staff are allocated to the same Earnings Rate then choose the option 'Use Value Below' from the drop-down and a text box will appear allowing you to type in the relevant Earnings Rate.
- Click 'Create the Export File' which brings up the following Data Export results screen.

### Authorise Application

**TimeUAT** (<http://www.timesheets.com.au/>) is requesting access to your Xero data.

Please select which organisation **TimeUAT** can access:

Intertec

**This application will have the same permissions as the user that has authorised access.**

This application will have access for **30 minutes** from the time you authorise it.

Once this application has been authorised, you can disconnect the application from accessing your Xero organisation from within the **General Settings > Add-ons** settings page in Xero.

- The following message will appear confirming the submission.

INTERTEC **TimePro**

**Time Records Submitted**

Results will be emailed to john@abcservices.comm;johnb@hotmail.comm when the upload is completed.

- An email similar to the screen capture below is sent to the TimePro administrators email address(es) with the results of the upload.
